## Network Player

**MOON** by SIMAUDIO

MiND 2 (MOON intelligent Network Device) is a fabulous way of streaming and listening to your music. The control center of the MiND 2 is our proprietary application, "MOON MiND Controller", that runs on compatible Apple or Android devices. Not only does MiND 2 allow you to access, browse and play your favourite music, it also gives you control of your MOON music system for ultimate ease of use.

Play queue (or playlist) allows tracks from more than one library (e.g. NAS, music services) simultaneously.

- Tidal Masters, Deezer Hi-Fi & Qobuz Sublime+ support
- Roon Ready device
- Software based technology for better future upgradeability
- SimLink™ communication channel to control other MOON components
- Control via intuitive MiND app on iOS & Android devices
- Multi-room synchronized playback
- Play queue mixing multiple sources capability (tracks from various services)
- Up to 32 bits/384 kHz sampling rate support on wired connection (Digital output limited to 24bits/192kHz (downsampled if required) – standard SPDIF format limitations applies)
- DSD converted to DOP output on SPDIF (Requires DOP-DSD capable DAC – standard SPDIF format limitations applies)
